### The President's Talking Point-Jennifer Kranzman

So, I have been listening and watching intently to understand what policies VP Kamala Harris plans to run on for President. I am not impressed with her flip flopping on the border, grabbing Trump's Tax on Tip, and \$25k to new home buyers to name a few. Yet Democrats infected with TDS focus on Trump's personality and not his proven policies with successful outcomes. A true example is a surgeon with terrible bedside manner, but patients lined up for him to do their surgery because he was very skillful, best outcomes, best surgeon in town. Patients overlooked his behavior flaws and just wanted his skilled hands touching their loved one. I have to agree with Dems, Kamala was not the Border Czar. Donald J Trump was a Border Czar when in office and look at his successful results. We need a President with vision, not afraid to answer questions, a proven track record of success at getting things done, whose policies became a reality.

## Legislative Update

**BREAKING:** In a 5-4 decision, SCOTUS has struck down the Biden-Harris administration's radical rewrite of Title IX! This ruling is a huge victory for common sense, protecting the integrity of women's sports, and preserving the privacy of our daughters in bathrooms, locker rooms, and dorms.
